AASHADHI EKADASHI CELEBRATION

Aashadhi Ekadashi' is one of the major festivals celebrated in the state of Maharashtra in India in worship of Lord Vithoba or 'Vitthala' as he is lovingly addressed by his devotees. The devotees from the states of Maharashtra and Goa thronged Prasanthi Nilayam to celebrate Aashadhi Ekadashi at the lotus feet of their Lord Vitthal. It is a festival of religious procession which is celebrated during the month of June-July, as per the Marathi Calendar, it is Aashadh Shukla Paksha. People consider the two eleventh days, Ekadashi, of every month to be of special significance. And the eleventh day (Bright) of Aashadh is known as the Maha(great) Ekadashi. We celebrate this festival in the form of promoting the tree plantation and giving a message to the people by carrying out a procession known as Vriksha Dindi in the style of tradition of DINDI (WARI).

SST COLLEGE ONLINE INITIATIVE TO REACH TO THE SOCIETY

The world is facing unprecedented economic disruption and the need to develop skills for a digital future is even more apparent now.

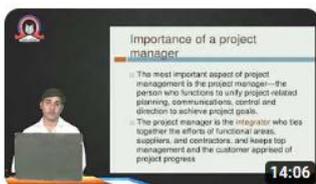

The pandemic has created irreversible changes to the ways institutions operate - and online learning will be at the heart of how the world responds.

Due to the spread of Covid-19 across the globe every one of us has been impacted. The majority of us are staying at home, when we are working, learning and teaching remotely. But as the world rapidly changes around us, what hasn't changed is SSTC's commitment to our student community.

SST Edupedia is a digital Platform aimed to help learners with access to free educational content. The main objective is filling the learning gaps that are present in the classroom teaching. During this pandemic delivery of the lectures effectively in the classroom alone is a very difficult task and hence, providing a very flexible solution for learning at their doorstep may solve the problem. Edupedia aims at helping students to learn not only the course curriculum taught by their teachers but also various industry interactions workshops and seminars. What started a short term response to a crisis will result in a long term digital transformation of higher education.

SST COLLEGE (VIDYADAAN)

Vidyadaan is an initiative taken by SSTC for sharing knowledge. In our Indian culture, DAAN has its own relevance. Whether it is “Daan” of shelter, food, physical help or anything else. In India, all the religious, all customs, all segments believe in daan. When a homeless person gets shelter daan, it gives him warmth for a night or two. When a hungry person gets food daan, it satisfies his hunger. When a person gets physical help (Shram Daan), it helps him to finish his task. But when someone gives Vidyadaan (sharing of knowledge) that person is changing the other person's life forever. It changes the person's persona and takes polished priceless gems out of raw stone. Knowledge has everything to make this world worth living. It has power to make an illiterate to rule the world,

Vidyadaan is not just giving the academic education but organising sessions on stress relieving, sessions on grooming and personality development, sessions on laughter yoga, sessions on mental health, sessions on various skills etc. Even the sessions of eminent personalities are conducted to share their life experiences. Difficulties, obstacles they have faced, so as to make the younger generation strong enough to face the real world challenges

This is why in our Indian culture our elders used to always say

CYBER CRIME: BULLYING AND MORPHING

On behalf of the Women Development Cell, a special seminar was organised for female students as well as teaching and non-teaching staff on “Cybercrime: Bullying and Morphing” with an objective to increase the awareness about cyber bullying and the darker side of social media.

As for the resource person who would enlighten students about such an essential concern, Ms. Kajal Vaidya, Trainer in Digital Literacy was invited. She spoke about issues faced by females in terms of cyber security and explained how these females can avail justice. She highlighted how there are various cyber laws that can protect women from bullying and morphing in the cyber world. The seminar was attended by 51 students.

This seminar helped the girls be educated about the know-how of a social media account and what goes around behind the curtains of the virtual world. They gained new knowledge about how they could identify and report abuse, if they ever come across it.

Kajal Naik Vaidya, Trainer Digital Sanskar, Chembur :

“I was invited as a Resource Person by SST College, Ulhasnagar to take a session on 'Cyber abuse and security' for their Women Development Cell and Internal Complaint Committee.

The issue is so close to our lives, still there is very little awareness about the same. I really felt that today's youth really requires to be way much conscious about their shares on social media platforms. I spoke about cyber bullying, stalking, morphing, and gaming. I love being in this role of a trainer or a facilitator. Especially with youths, it becomes so challenging to let them accept something new to them. Initially, maybe they won't take interest in your discussion but later they might make you learn something new. The students were so happy to know about the topic and training was very much impactful. Very happy to share this and would love to get better and better.”

CONDUCTED CULTURAL EVENTS BY WDC IN ASSOCIATION WITH SATKARMA BALAK ASHRAM

Women play various roles & responsibilities, they are gifted with a kind heart to serve others & that's why Women Development Cell organised a visit to Satkarma BalakAshram, Badlapur (Dist. Thane). Ashram takes complete care of small children staying there.

WDC unit was lucky to get an opportunity to visit an Ashram named Satkarma BalakAshram On 6th January, 2017. It was a two-storey building with a terrace. The age group of the children ranged from 5 years to 14 years. We offered them food, cold drinks, books, chocolates, pens, etc. WDC members segregated themselves and went to talk individually to everyone. Many of us played indoor & outdoor games with those children. .

It was indeed a very satisfying experience for all of us, as this activity brought smiles on children's & our faces too. And our students realized their social responsibilities towards such underdeveloped people.
