Acknowledgement

A recent initiative launched in India in 2014 to improve the situation of sanitation is the *Swachh Bharat Abhiyan* (Clean India Mission). It believes that behavioural changes in society about healthy sanitation practices can come if the community is empowered. Hence, emphasis is laid on conduct of awareness generation programs, and citizen engagement in the reform process. S.S.T College has voluntarily joined hands with the *Swachh Bharat Abhiyan* (Clean India Mission) by participating at the national level Swachh Bharat Summer Internship Course in a village named Nevali in Maharashtra. The key objective was to involve the students in the community service in the rural areas. A variety of programmes including awareness Rally, Skit, Construction of Toilets, Proper Waste Disposal and Sanitation Practices.

We record our sincere thanks to Shri Chainu Nathu Jadhav Sarpanch, Head of the Group Gram Panchayat, Nevali, Ambarnath. Shri Sanjay Rangnath Kharnare, Head Master, Zila parishad School, Nevali, Gram Sevaks, Block Development Officers, for their constant help and co-operation throughout the internship.

We also record our sincere thanks to the Forest Department officials, who guided us during our drive for Mega Tree Plantation of 2500 trees. We sincerely appreciate the efforts of Shri. Shelke Chandrakant Yashwant, Shri Banghare Dattatray D., Shri Anand Prabhu and Shri Gite Sanjay to quote a few. The internship is the outcome of the sincere efforts of our programme officer Prof. Reena Mishra, Prof. Anil Teling and Prof. Mayur Mathur. The internship was not possible without the permission and opportunity given by our Principal Dr.J.C.Purswani for the continuous administrative, financial and technical support.

Last but not the least, my special thanks to students, the community members especially Gram Sevikas, and teachers who have cooperated and their inputs have enriched our insights and contributed greatly to this report and to bring forth this internship successful.

Report

Swachh Bharat Summer Internship 2018

Duration: 100 Hours (between 1st May to 31st July 2018)

For every human being potable drinking water, sanitation and healthy hygiene practices are important to sustain healthy life. Rural segments of India are mostly deprived of these essential amenities. Swachh Bharat Abhiyan Mission came into existence to ensure that each and every citizen of India should get the access to these basic necessities. In relation to this Government of India has given the opportunity to the youth of the country to participate in the same mission. I BHOSALE PRAFULL TUSHAR proud to be the part of SWACHH BHARAT SUMMER INTERNSHIP 2018 as INTERN, where I got the opportunity to involve myself in the rural India and an opportunity to understand the awareness and the behavioral changes in the villagers after the Swachh Bharat Abhiyan. Following is the Report of the Summer Internship of 100 hours which was done in the NEVALI Village. As per the Guidelines from the government for the different activities to be carried out in the village, following are the important activities where I participated as the leader of the group.

ACTIVITIES CONDUCTED DURING THE INTERNSHIP

WALL PAINTINGS ON PUBLIC WALLS

No. of Walls Painted: 10

Estimated Number of People Sensitized: 256

No. of Hours Spent: 24

Brief Description:

To reinforce the key messages from time to time, wall paintings play a key role as people see them during their daily routines. Wall Paintings have a great potential to emphasize on key and correct hygiene and sanitation messages. Wall paintings were done in the busy areas like Bus Stand, Village Market and Schools etc the villagers who had seen the wall paintings claimed that they reinforced learning relevant to good hygiene and sanitation. Wall paintings play a key role as people see them during their daily routines. Another advantage of the wall painting is that it does not target a group of stakeholders but in fact triggers thought in anyone who sees them.

PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

Methodology: Wall Painting with the colors and banners.

Challenges Faced:

The walls were dirty. At Many public places the walls were used for the marketing and for the commercial purpose by the villagers, Hence removed the unnecessary material from the wall and started the new painting on health and hygiene.

Field Learning:

I learned that wall painting is a very effective tool of the communication, as every person can watch and get the information for the same.

OTHER ACTIVITY

Activity Name: Tree Plantation

No. of beneficiaries: 456

No. of hours spent: 20

Brief Description:

The college organized a Mega Tree plantation with the Forest Department with their planned schedule and 2500 plants were planted with the help of the Gram Panchayat Sevaks, Villagers, school and college students. Through the banners, posters and skits, awareness was sought to be created on the green and clean environment.

Methodology: Tree Saplings, banners and posters were used.

Challenges Faced:

The land given to us by forest department was uneven. So it was difficult for us to dig the land for plantation and other difficulty was continuous heavy rains.

Field Learning:

Learnt how the Environment plays an important role in our life. How the health and hygiene is important for wellbeing. The villagers also agreed that diseases are caused by the unhygienic practices.

Conclusion:

Swachh Bharat Abhiyan is not only a toilet construction programme or cleaning roads, streets etc, but a behavior change for mass movement and the real key is to bring about behavior changes on the ground level and to have grassroots level trained motivators who create awareness for use of toilets and cleanliness. I have voluntarily joined hands with the Swachh Bharat Abhiyan through my college. The aim was to create the environment conducive for the cleanliness drive and also offer a variety of programmes which includes preparation of soaking pits etc. in order to activate the process of behavioral changes. I extend my sincere thanks to college authorities for giving me such an opportunity.

Acknowledgement

A recent initiative launched in India in 2014 to improve the situation of sanitation is the *Swachh Bharat Abhiyan* (Clean India Mission). It believes that behavioural changes in society about healthy sanitation practices can come if the community is empowered. Hence, emphasis is laid on conduct of awareness generation programs, and citizen engagement in the reform process. S.S.T College has voluntarily joined hands with the *Swachh Bharat Abhiyan* (Clean India Mission) by participating at the national level Swachh Bharat Summer Internship Course in a village named Nevali in Maharashtra. The key objective was to involve the students in the community service in the rural areas. A variety of programmes including awareness Rally, Skit, Construction of Toilets, Proper Waste Disposal and Sanitation Practices.

We record our sincere thanks to Shri Chainu Nathu Jadhav Sarpanch, Head of the Group Gram Panchayat, Nevali, Ambarnath. Shri Sanjay Rangnath Kharnare, Head Master, Zila parishad School, Nevali, Gram Sevaks, Block Development Officers, for their constant help and co-operation throughout the internship.

We also record our sincere thanks to the Forest Department officials, who guided us during our drive for Mega Tree Plantation of 2500 trees. We sincerely appreciate the efforts of Shri. Shelke Chandrakant Yashwant, Shri Banghare Dattatray D., Shri Anand Prabhu and Shri Gite Sanjay to quote a few. The internship is the outcome of the sincere efforts of our programme officer Prof. Reena Mishra, Prof. Anil Teling and Prof. Mayur Mathur. The internship was not possible without the permission and opportunity given by our Principal Dr.J.C.Purswani for the continuous administrative, financial and technical support.

Last but not the least, my special thanks to students, the community members especially Gram Sevikas, and teachers who have cooperated and their inputs have enriched our insights and contributed greatly to this report and to bring forth this internship successful.

Brief Description:

It was observed that the villagers have their own perceptions regarding the use of toilets. Some villagers were of the view that the construction of toilets in house is against religious rituals whereas some have expressed that they do not have sufficient water resources, hence they are constrained to go for open defecation. Some villagers opined that they do not have sufficient space to construct the toilets. But when they were given the demonstration by showing the movies that the open defecation is the major causes of the diseases, their perceptions started changing.

Methodology: Group Discussion and posters

Challenges Faced: Villagers' belief and perception.

Field Learning: Importance of the health and hygiene

PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

Challenges Faced:

People were having the blind faith regarding the use of the toilet as it should not be constructed inside the home and the non availability of the water was one of the reasons. It was little bit difficult to convince them that use of toilet is actually good for living a healthy and dignified life.

Field learning:

By way of interaction and discussion while convincing the villagers that how by maintaining the cleanliness, we can keep our surrounding clean and live a healthy life. I also got several insights regarding use of toilets and the problems which the rural villagers were facing. I also understood the fact that local health and hygiene issues were very important.

Conclusion

The 3-month Summer Internship exposed me to various aspects of rural life. I spent the nearly few days initially to read and understand about the Guidelines to be followed under Swachh Bharat Summer Internship and got my queries cleared from my mentor. During my field visit to village in NEVALI, first time I learnt about the behavior of a rural People towards the Health and Hygiene. In the beginning when I interacted with the villagers, they were reluctant to open, may be due to language barrier. But after I tried to communicate in their language, which was important to establish rapport. After winning their confidence and trust I started explaining them what the Swachh Bharat Abhiyan is all about. The findings suggest that community members were very much concerned about the cleanliness programme and were very much enthusiastic about maintaining the continuity of Swachh Bharat Abhiyan related activities which were conducted by us. It will not be out of way to point out that during my field visit to village not only I learned about the behavior of a rural people and ways to enhance awareness among them but also I learned a lot about the health and hygiene issues.

I offer my sincere thanks from core of my heart to the staff and management of the college for giving me an opportunity to learn from beyond academic activities by working in real world through internship programme.
