**SST COLLEGE OF ARTS & COMMERCE**

Every year, each department organises alumni meetings at which members provide extremely valuable suggestions, opinions, and comments on the college's growth, development, and performance. This feedback is being provided in order to obtain the inputs of former students on the quality of the programme that was offered at the College. This will also be helpful in assessing the degree to which the outcomes of the programme have been achieved. This feedback will be collected from all of the participating College alumni during the annual Alumni meet.

## RESULT ANALYSIS OF ALUMNI FEEDBACK (2016-17)

Alumni are asset for any institution. They give valuable inputs and suggestions for the improvement of facilities in the campus and become torchbearer of our students. SST College of Arts & Commerce, Ulhasnagar-4 has alumni association that promotes and aspires a sense of belongingness among the old students and seeks suggestions and observations in for the development of the institution. The objective of the feedback is to have an assessment of the college in terms, of infrastructure, curriculum, placement and general environment about the college to serve the society in the best way.

### METHODOLOGY

The feedback from Alumni on designing and reviewing the curriculum was obtained through a structured questionnaire which included a few questions on various aspects of the college like infrastructure, placement initiatives, curriculum, etc.

A five-point Likert scale has been used with weights assigned from 1-5 to different levels as follows:

1. Strongly disagree
2. Disagree
3. Neutral
4. Agree
5. Strongly agree

**The range of each order or levels is determined by the following formula:**

(Highest point in Likert scale — lowest point in Likert scale)/number of levels used

Therefore range =  $(5-1)/5-4/5-0.8$

Hence

Range for strongly disagree is 1.0-1.8

Range for disagree is 1.8-2.6

Range for neutral is 2.6 — 3.4

Range for agree is 3.4-4.2

Range for strongly agree 4.2-5.0

Data was collected with the help of sampling technique.

Education and experience may make a person eligible to apply for a job but to be successful in most roles, a student will need skills that are likely to develop only over time. Some skills will be specific to the job, but the vast majority will be so-called ‘soft skills’ that can be used in any job or employment sectors. These soft skills are thus known as ‘employability skills’: they are what makes you employable. Considering this point in view survey was conducted that whether the employability is given weightage in curriculum design and development or not. It is evident from table 4 that 34.85% of Alumni strongly agree and 37.88% agree with the statement. 22.73% are neutral towards the statement. 3.03% disagree and 1.52% strongly disagree with the statement. Weighted mean score is observed to be 4.02 that is in likert scale is in between 3.4-4.2. So it can be concluded that the majority of alumni agree that the syllabus creates interest to pursue Graduate/Postgraduate/Research in the particular topic.
