SSTian Innovation and Business incubation Centre (SIBIC)

Institution has created an eco system for innovations including Incubation centre and other initiatives for creation and transfer of knowledge.

An eco system has been created in the institution to promote innovation, transfer of knowledge and entrepreneurship. As part of innovation, SSTian Innovation and Business incubation Center (SIBIC) has been set up in the year 2011-2012 for nurturing innovative ideas from the students. Initial amount has been sanctioned by Trust to establish SIBIC in the institution for 11 years starting from the academic year 2011-12. As part of this initiative, Ideation contests were conducted every year. The students participated in large number and showed enthusiasm towards innovation and its practice. The institute provided necessary facilities and financial support upto to carry out each of these projects. A Committee consisting of experts from diverse fields representing industry, banking and other allied areas are involved in the short listing of innovative ideas for pursuing further.

As part of choice based education system, the students are encouraged to take up co- curricular activities involving project based learning which culminate into creation of innovative knowledge helpful for the society. Students are encouraged to take up research projects as part of their semester V and Semester VI project work. Students are encouraged to take up and participate in code development activities such as Hackthons and Coding contests etc., which train the students towards innovation.

Faculty is encouraged to conduct research activities and make publications in the journals of repute for knowledge sharing. The institution has the practice of conducting various workshops and conferences periodically for creation and sharing of knowledge. They are also encouraged to contribute to national and international conferences conducted outside the institution as part of this initiative. Similarly some of the faculty members have published technical books as a part of initiative for knowledge creation and transfer.The faculty has been encouraged to take up Intellectual Property rights as an initiative towards innovation and knowledge sharing. The faculty delivers guest lectures and expert lectures to other institutions as part of knowledge sharing.

The club has organized many programs for students and faculty students in activities including formulation of business plans, sourcing of funds for projects and managing various dimensions of business such as purchase, production, inventory, accounting, marketing and quality control, designing and reporting. In collaboration with the Ecology " Best out of Waste", Program was conducted. Students collected waste materials , recycled and converted to T- Shirts and sold out in the campus.

Energy Swaraj Foundation organized a Boot Camp for 600 students and 40 faculty collaborating with SSTian SIBIC (SSTian Innovation and Entrepreneurship Development Cell). They gained hands on experience in various dimensions of designing a Solar System.

The Diwali sale, a long-standing tradition, gives visibility and recognition to our alumni entrepreneurs and other scholars.

RESEARCH

SSTian Research and Consultancy Cell (SSTRACC)

SSTRACC

SSTian Research and Consultancy Cell (SSTRACC) of SST College established in 2019 coordinates the institution's research activities and makes efforts to foster a supportive research culture on campus. The Cell monitors, helps with, and assesses the research operations. It offers a forum for facilitating discussions, disseminating research findings, and keeping up with the most recent advancements in the research community.

Vision

The College has played a significant role in promoting research and consulting through its dedicated faculty members in the fields of science, the arts, and business. At the national and international levels, the college faculty members have published works with high citation counts and impact factors. In order to strengthen research activities, the college encourages high-quality research in rapidly developing scientific fields and other areas of social importance. Our objective is to reach a higher level of competence comparable to that of world-class research institutes and elite universities.

Mission

To encourage and motivate faculty, research scholars, and students to publish articles in peer-reviewed journals, as well as to facilitate their active participation in conferences, seminars, workshops, and symposiums for the advancement of their knowledge and the continuation of quality research that contributes to the development and growth of the nation through socioeconomic and scientific outcomes.

Its objectives are :

- To review research and project proposals from the faculty and institution before submitting them sponsoring agencies

S.S.T COLLEGE OF ARTS & COMMERCE UNR - 4

PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- ❖ It conducts regular evaluations of the institution's overall research activities and its development programmes.
- ❖ To assist in developing the proposals for holding seminars, workshops, and conferences
- ❖ Exchange of faculty to foster multidisciplinary research

SSTRACC organises an International National Conference and Nav-pravartan research convention every year to bring together all the scholars, mentors, students, and academicians to reflect on their research areas and to share their thoughts on the creation of new knowledge as part of its initiative to achieve excellence in research and to develop as a thought leadership centre.

The conference empowers students and faculty members at the institution to network.

- ❖ Determine research frameworks, survey them, and list the prevailing paradigms.
- ❖ Develop Effective research writing applications
- ❖ Learn about patents, intellectual property rights, and funding organisations and programmes.
- ❖ Provide an opportunity for the institution's students and teachers to present their research work for the year.
- ❖ Present a resource compendium on socially responsible research and bring forth significant researchable challenges.

Concerning the accomplishments of research centres, we participated in the Avishkar research convention hosted by Mumbai University, and two students were chosen for the final round. Out of the ten papers published in the previous academic year (2021-22). We encourage project-based learning, and 40 students attended the Avishkar research convention and the Nav-Pravartan research convention.

Authentication and Its Techniques

Rahul Rakesh Chauhan

M. Sc. IT (Part-1), SST College Arts And Commerce

Abstract

Authentication is a process of verifying whether the user is valid or not for the requested service is known as authentication. It is a process of granting a user access to an information system, most commonly used is user-name password. There are three many types of authentication techniques or types such as local storage and comparison, central storage and comparison, challenge and response, Kerberos, one-time password, certification based, biometric, smart cards. Each authentication mechanism functions differently and has their strengths and weakness. In this paper we review different types of authentication techniques, how they work and what methods they use to prevent from several attacks or malicious activities.

Keywords: Authentication, Types of Authentication, Working of Eachtechniques.

Introduction

In the context of computer security, it is whatever means is used to determine that a user, a source or data is 'authentic'-not false or copied; genuine; real. The most well-known authentication method is User ID and password. 'Authentication' is the process that gets you access to whatever system, data stream or application that you are requesting.

While a password may be sufficient to secure simple accounts like social media profiles or other online communities, the truth is that many of us store more sensitive information online.

Authentication is the process of establishing and confirming the identity of a client requesting services. It's composed of two parts: a public statement of identity (usually in the form of username) combined with a private response to a challenge (such as a password).

MoUs with other Organizations to Enhance Students Entrepreneurial Development

The college's primary areas of focus are research and innovation. For academic and research collaborations, the College has signed Memorandums of Understanding (MOUs) and established links with national institutions, industries, corporate houses, and organisations. As part of choice based education system, the students are encouraged to take up co- curricular activities involving project based learning which culminate into creation of innovative knowledge helpful for the society. Students are encouraged to take up research projects as part of their semester V and Semester VI project work. Students are encouraged to take up and participate in code development activities such as Hackthons and Coding contests etc., which train the students towards innovation.

AND WHREAS, MESC through its Education & Skill Development initiatives will work closely with its members and Industry Associations to help improve the quality of the employable skills of students of **COLLEGE**. In this regard, there are various short, medium and long-term courses undertaken to meet this objective.

Now it is hereby mutually agreed amongst both parties to this MoA and binds themselves to the terms and conditions enumerated in succeeding paragraphs:

Roles and Responsibility of COLLEGE

a) To appoint a Board of studies to vet the courses and suggest suitable changes.A member of MESC shall be the nominated/ invited member of the Board.
b) Ensure monitoring of the courses and obtain feedback for the utility of the courses being offered.
c) To arrange infrastructure at existing Institute premises or with industry partners to carry out training batches, thus enabling to utilize the existing infrastructure and other facilities present in the said premises.
d) To enable a congenial atmosphere for mobilization of the trainees/students.
e) To assist for promotional support so as to publicize the initiative for skill development and to facilitate mobilization of trainees.
f) To assist provision for training equipment as and when required.
g) To develop the infrastructure.
h) COLLEGE being esteemed training institution will play as knowledge partner for MESC.
i) COLLEGE will undergo the NSQF aligned MESC courses.
j) COLLEGE will arrange Training of Trainers.
k) There will be no financial role of MESC in arrangement between COLLEGE and the Industry body.
l) COLLEGE will pay the assessment fee to MESC.

Roles and Responsibility of MESC

a) To assist COLLEGE in aligning the curriculum with the identified Media and Entertainment qualification packs and national occupational standards for B-Voc, BSC, BA and other Course Curriculum related to Media and Entertainment.
b) To facilitate training of trainers and help in provisioning of Master Trainers from the industry, on as required basis.
c) Develop industry linkages to enable the students to have practical training and skill development on the job.
d) To ensure quality of training delivery by adopting a stringent accreditation process for training service providers, assessments and certification of trainees.
e) To conduct assessment and issue certificate.
f) Assessment will be carried out as per the QP progression matrix aligned to NSQF.

12. **Confidential Information:**

a. Both parties undertake to each other to keep confidential all information (written or oral) concerning the data and affairs of the other, which has been obtained or received during the course(s)of performance hereunder, save that which is inconsequential or obvious;

b. Already in its possession other than as a result of a breach of this clause; or in the hands of the public other than as a result of a breach of this clause.

c. In the event of any of the parties becoming legally compelled to disclose any confidential information, such party shall give sufficient notice to the other party so as to enable the other party to seek a timely protective order or any other appropriate relief. If such an order or other relief cannot be obtained, the party being required to make such a disclosure shall make the disclosure of the Confidential Information only to the extent that is legally required of it and no further.

d. Both parties agree not to deal directly or enter into any business agreement with any of the partners or associates or customers of either party during the term of the agreement and also after the agreement has been terminated, not earlier than two years from the date of termination.

13. **Force Majeure:**

a. Neither party to this MOU shall be liable for any failure or delay on its part in performing any of its obligations under this MOU, if such failure or delay shall be result of or arising out of Force Majeure conditions and, provided that the party claiming Force Majeure shall use its best efforts to avoid or remove such cause of non-performance and shall fulfil and continue performance hereunder with

Patent Publication

mswordcoverpages.com

Protection and management of Intellectual Property (IP) have become big problems for countries all over the world, especially since patents are seen as a sign of technological progress and R&D trends. Most countries in the world work on projects that help the economy and protect their intellectual property because they know that knowledge is the main source of wealth in the new world economy.

(57) Abstract :
Every day, a large number of people die in vehicle accidents around the world. Life is only guaranteed if the mistake is discovered on time, and the penalty is imposed to the scene. People all throughout the world are concerned about traffic accidents. All road accident injuries and deaths are caused by traffic on the road and accidents caused by a lack of or global road safety crisis. Road crashes are the second leading cause of death among teenagers. Every year, persons aged 13 to 40 die in traffic accidents as a result of reckless driving. Automatic speed tracker and notification systems must built inside the motor vehicles. The use of automatic speed tracker using sensor and notification systems in Smartphones is the subject of this study. The first phase is the identification stage, in which a motor vehicle speed is detected, and the second phase is the notification stage, in which the speed is detected and detailed information is sent to the traffic control room and favorite contacts through ML Algorithms

(57) Abstract :
Approximately 10% of people's daily time is spent time between work and home. Furthermore, as people's living standards rise in today's society, their demands for a comfortable environment inside the home rise as well, necessitating the use of a reliable air conditioner to ensure home environment comfort. The compressor is frequently started and stopped in an air conditioning system to achieve the appropriate temperature. The ideal compressor speed of the air conditioner in the car, on the other hand, is determined by a variety of parameters such as the changing temperature and humidity of the surroundings throughout the day. As a result, an intelligent system based on l AI-based sensors that measures the user's temperature and humidity within the environment is offered. This sensor monitors the gas level in the compressor on a regular basis. When the gas level in the compressor falls below the normal range, it alerts the stakeholders. As a result, essential steps can be made to prevent the AC from shutting down.

(57) Abstract :
Spy app tracker is a tracking tool that parents use to keep track of their children's whereabouts and driving speeds, and as such, it is either a safety precaution or a tattletale, depending on your point of view. Technology has influenced Generation Z's habits and expectations in the same way that it has impacted the behaviours and expectations of their parents, who can monitor communications and manage how much time their children spend on apps or games with eerie precision. Gen Z is now entering adulthood, and both its members and their parents are grappling with the ramifications of a world in which you can always know what your child is doing thanks to an app. As their children start college, some parents prefer to preserve this link. The software has the potential to escalate abusive conduct. Although it's rare, if the app is being misused, we have a responsibility to assist and prevent it. Using this app other than family members are also tracking the movement of the individuals. We can employ AI and IoT sensor systems to track and prohibit non-family members from gaining access. Members of the family should save their contact lists as both family and business contacts. If an outsider/business contact wants to track a member, the system should first give notification of acceptance to the individual being tracked, only then outsiders can track the movements with his/her permission.

Solar Energy (Installation of Solar Systems)

1. Fight Power Cuts Efficiently

Colleges normal schedule can easily get disrupted if there is a power outage. Moreover, teachers often use sophisticated appliances like computers, projectors and smart boards to impart knowledge. And if the power supply stops suddenly, this can be a major problem, wasting both the teachers' and students' time. However, with solar panel installation, colleges avoid this issue as you won't be dependent on the grid anymore. Whether you go for off-grid or on-grid solar power systems, you will get steady and reliable power all day long.

2. Lower Electricity Bills Every Month

Running a college means raking up high electricity bills every month, if we are solely dependent on the grid. From fans and lights to printers, computers, fax machines etc., you need power for everything. But this cost can come down dramatically from the use of solar energy. Usually, colleges have large roof areas, which can make it easy to install solar panels. Now, you might be wondering if solar panels for colleges cost a lot. While the initial cost of installing such panels is slightly on the higher side, over time, you will start saving impressively. With solar energy, we can support all daily activities that our college sees, and even store extra energy to sell back to the grid. Plus, the maintenance charges for solar panels are negligible.

3. Minimal Maintenance Charges

Colleges are often short on funding when it comes to maintaining their infrastructure. But, the this issue was solved by installing **solar panels**. Panels from well-known manufacturers are designed to be durable and robust enough to bear drastic changes in temperature, heavy showers and natural calamities. If the weather is usually mild where you live, these panels might last you for two decades or more. All you have to do is check up on them now and again and clear off any debris.

4. More Eco-Friendly and Sustainable

We use solar panels for college which helps to reduce pollution and carbon footprint. Also, if we wish to run college sustainably and independently, then it is a good idea to lower your dependence on non-renewable fossil fuels and the grid. And that is the reason we install solar panels on rooftop. They can generate their own electricity as long as they get sunlight.

Installation of Solar Panels

The college has installed solar energy system which is a step towards reinforcing carbon credits and identifying and removing potential barriers in using solar energy resources. The college has already installed 50KW solar panels in the first phase for load of 30 KW i.e. the total energy requirement of the college. As an additional step, the system with 20KW was installed which ultimately resulted into substantial reduction in the electricity bill of the college.

Report

Date of Report: 8th Feb 2020
Date of Orientation: 7th Oct 2019
Duration of Program – 14th October 2019 to 1st February 2020

Resource Person: Mr. Swapnil Shirsat, Mr. Amit Tripathi and Team- Unnati Kotak Education Foundation.

Objective of the session: To introduce Zero Cost Skill Enhancement and Placement Program for the Students.

Outcome of the Session: The Students completed a Short Term Course Earn While You Learn Covering Customer relations and Sales.

An Orientation Program themed Earn while you Learn was Arranged by Lakshya Training Cell under the Guidance and Presence of Founder Principal Dr. J.C Purswani, Mr. Swapnil Shirsat and Mr Amit Kumar Tripathi. The Placement Cell Members Advocate Sunil Shah, Asst Prof Krishnaji Salgaonkar, and Asst Prof Padma Deshpande were also present. The Program started with brief Introduction of the Speakers, the Students were explained about the Course Duration, Content, and Selection Procedures by the Representatives of Kotak Education Foundation. Founder Principal addressed the Students and encouraged them to take maximum benefit of the program and get Placement Opportunities.
A Selection Process was also carried out by the KEF team, A Total of 63 Students had enrolled for the program out of which 40 Students were selected.
Earn while you Learn is a Short Term 4 Months training Program for the Undergraduates initiated by Lakshya Training & Placement Cell in Collaboration with Kotak Education Foundation. Kotak Education Foundation is the CSR Initiative of Kotak Mahindra Bank which focuses on developing the backward sections of the Society.
EWYL program is for the Age Group 18 to 21 Years which focuses on Various Domains related to Customer Relations and Sales. In this program the Students will be trained on Life skills, English Language and Communication, Presentations, WRM, IT, Customer Relations Management, Retail Sales , Industrial Visits, Expert Lectures and Seminars and other Professional Skills which would help the Students to equip themselves professionally.

Kotak Education Foundation - Introductory Email

Inbox

Amitkumar Tripathi <amitkumar.tripathi@kotakeducationfoundation.com> Fri, 27 Sept 2019, 15:58

, me

Hi

Greetings of the day

I would like to take the opportunity to introduce you to Kotak Education Foundation. Kotak Education Foundation (KEF), is an initiative in the field of education started in April 2007 by Mr. Uday Kotak, (Executive Vice Chairman and Managing Director - Kotak Mahindra Bank) & Mr. Shivaji Dam (Former Director - Kotak Mahindra Bank) as the promoters.

WHAT IS UNNATI?

Unnati is one of the interventions of the Kotak Education Foundation. It is a livelihood programme to train and mentor the 18-30 years old youth who have dropped out of school or college due to financial, personal or academic challenges; completed graduation but still unemployed due to lack of soft skills / technical skills. A vision to support them to be 'better employable' and rise above the poverty line, in order to lead a life with dignity, is the driving force behind Unnati's tireless efforts. Since its inception, Unnati has trained 10,000+ aspirants and assisted in providing them jobs in well known organisations all across Mumbai.

UNNATI - Vocational training programme.

The training includes a) Building technical skills - Banking, Financial Services, Insurance, Customer Relations, Sales b) Building Soft skills -such as Communicative English, Basic IT, Personality Development and Life Skills. The curriculum is a combination of interactive sessions including industry experts, practical exposure through role-plays & situational awareness.

VISION UNNATI:

We want our aspirants: To be well-groomed, self-confident and able to interact with others. To be aware and reassured that despite having quit academics, they can acquire the right skills and attitude to pursue a worthwhile career. To know

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

the basics of goal-setting and how to achieve them. To acquire life-skills and thereby the attitude to focus upon taking up a job. To become capable of earning a living with dignity. To understand available opportunities and define their direction in life. To have acquired basic knowledge in at least one particular domain. To have acquired basic work ethics such as regular attendance, sincerity, punctuality, grooming & team-work. To understand spoken English and be able to converse in basic English.

ELIGIBILITY CRITERIA

1. **BFSI Batch:** An aspirant must be 20+ years, a graduate belonging to the underprivileged section of the society and unemployed to enroll for the training. **A batch has to have a minimum 35-40 students in all.**

COURSE DURATION

It is a part-time online vocational programme for aspirants.
Timings : 1000 hrs to 1400 hrs
Course duration : 70 working days

PLACEMENT

After successful completion of training , we place the aspirants in the BFSI Sector. We assure to give them 100% placement assistance. We have our Corporate Networking Team that takes care of all placements.

Please feel free to get in touch for any further queries or doubts.

IIT – SPOKEN TUTORIAL

Brochure

About the Spoken Tutorial project

- Self explanatory - uses simple language
- Audio-video - uses multisensory approach
- Small duration - has better retention
  Learner-centered - learn at your own pace
- Learning by doing - learn and practice
  Simultaneous empowerment - learn a new FLOSS

Target Audience

Students

The Spoken Tutorial Project Team conducts workshops on Introduction to Computers and other FLOSS using spoken tutorials and gives certificates to those who pass an online test.

For more details, please write to contact@spoken-tutorial.org

The Spoken Tutorial Project is funded by the National Mission on Education through Information and Communication Technology, Ministry of Human Resource Development, Government of India.

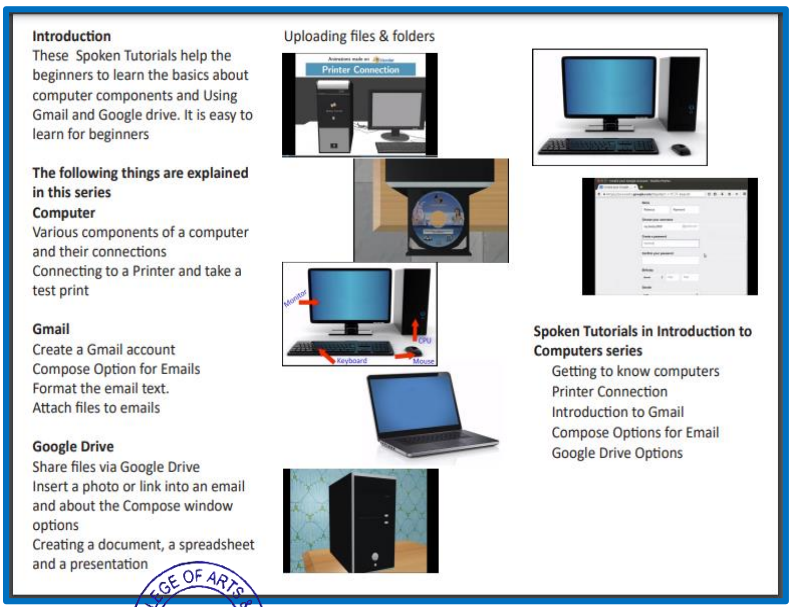
National Mission on Education through Information and Communication Technology (NMEICT)
www.sakshat.ac.in
Funded by MHRD, Government of India.



Introduction
These Spoken Tutorials help the beginners to learn the basics about computer components and Using Gmail and Google drive. It is easy to learn for beginners

The following things are explained in this series

Computer
Various components of a computer and their connections
Connecting to a Printer and take a test print

Gmail
Create a Gmail account
Compose Option for Emails
Format the email text.
Attach files to emails

Google Drive
Share files via Google Drive
Insert a photo or link into an email and about the Compose window options
Creating a document, a spreadsheet and a presentation

Uploading files & folders

Syllabus

Introduction to Computers

"Introduction to Computers" tutorials have been created with the intention of providing basic information about a computer, printer and an email account. These cover information on parts of computer, connections between various components and devices, printer configuration, creating an email account (gmail), sending an email, receiving an email, sharing via Drive, etc.

Contents

1 Basic Level

1. Getting to know computers
   - The various components of a computer
   - To connect the various components of computer
2. Printer Connection
   - How to connect a printer to a computer.
   - Configuring the settings.
   - Test print.
   - Printing a pdf document.
3. Introduction to Gmail
   - Create a new google account
   - Login to gmail using the google account
   - Write an email
   - Send an email
   - View an email and logout of gmail.
   - We will also learn about some of the important mailboxes like Inbox
4. Compose Options for Email
   - The email recipients, namely, To, Cc, Bcc.
   - Format the email text.
   - Attach files to emails.
   - Share files via Google Drive.
   - Insert a photo or link into an email and about the Compose window options
5. Google Drive Options
   - Options available in Google Drive like:
   - Creating a document, a spreadsheet and a presentation
   - Uploading files & folders
   - And Sharing options like:
   - Can View
   - Can Comment
   - Can Edit

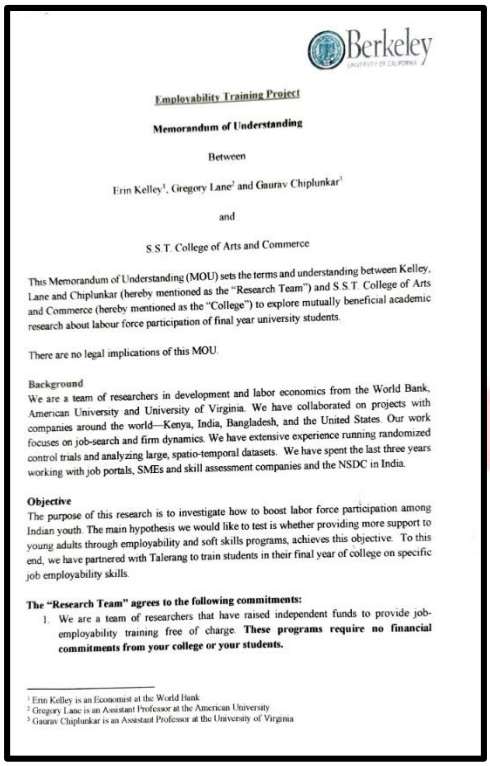
Employability Training Programme

MOU



Berkeley

Employability Training Project

Memorandum of Understanding

Between

Erin Kelley[1], Gregory Lane[2] and Gaurav Chiplunkar[3]

and

S.S.T. College of Arts and Commerce

This Memorandum of Understanding (MOU) sets the terms and understanding between Kelley, Lane and Chiplunkar (hereby mentioned as the "Research Team") and S.S.T. College of Arts and Commerce (hereby mentioned as the "College") to explore mutually beneficial academic research about labour force participation of final year university students.

There are no legal implications of this MOU.

Background

We are a team of researchers in development and labor economics from the World Bank, American University and University of Virginia. We have collaborated on projects with companies around the world—Kenya, India, Bangladesh, and the United States. Our work focuses on job-search and firm dynamics. We have extensive experience running randomized control trials and analyzing large, spatio-temporal datasets. We have spent the last three years working with job portals, SMEs and skill assessment companies and the NSDC in India.

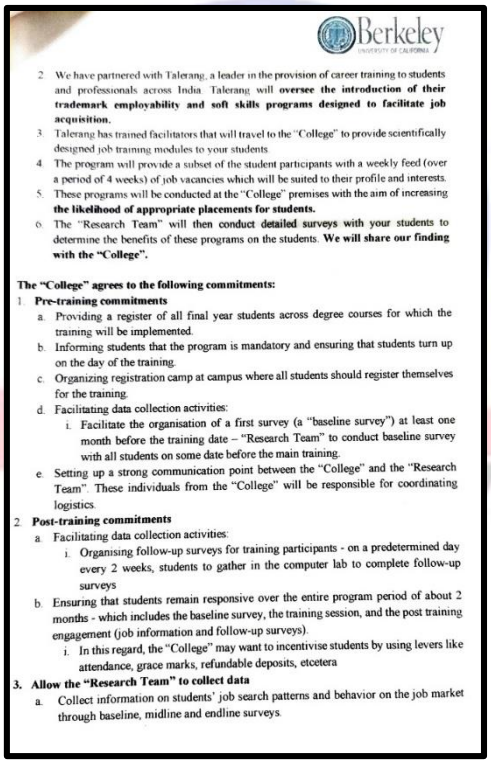
Objective

The purpose of this research is to investigate how to boost labor force participation among Indian youth. The main hypothesis we would like to test is whether providing more support to young adults through employability and soft skills programs, achieves this objective. To this end, we have partnered with Talerang to train students in their final year of college on specific job employability skills.

The "Research Team" agrees to the following commitments:

1. We are a team of researchers that have raised independent funds to provide job-employability training free of charge. **These programs require no financial commitments from your college or your students.**

[1] Erin Kelley is an Economist at the World Bank
[2] Gregory Lane is an Assistant Professor at the American University
[3] Gaurav Chiplunkar is an Assistant Professor at the University of Virginia

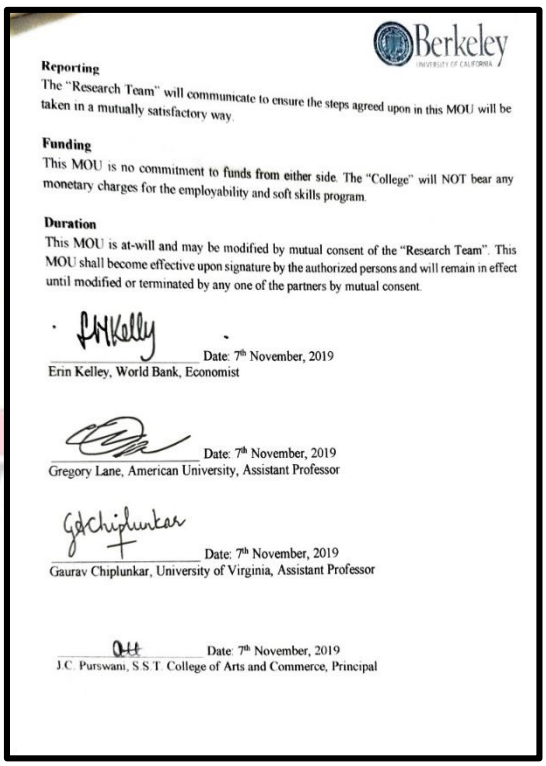


Berkeley

2. We have partnered with Talerang, a leader in the provision of career training to students and professionals across India. Talerang will **oversee the introduction of their trademark employability and soft skills programs designed to facilitate job acquisition.**
3. Talerang has trained facilitators that will travel to the "College" to provide scientifically designed job training modules to your students.
4. The program will provide a subset of the student participants with a weekly feed (over a period of 4 weeks) of job vacancies which will be suited to their profile and interests.
5. These programs will be conducted at the "College" premises with the aim of increasing **the likelihood of appropriate placements for students.**
6. The "Research Team" will then conduct detailed surveys with your students to determine the benefits of these programs on the students. **We will share our finding with the "College".**

The "College" agrees to the following commitments:

1. **Pre-training commitments**
   a. Providing a register of all final year students across degree courses for which the training will be implemented.
   b. Informing students that the program is mandatory and ensuring that students turn up on the day of the training.
   c. Organizing registration camp at campus where all students should register themselves for the training.
   d. Facilitating data collection activities:
      i. Facilitate the organisation of a first survey (a "baseline survey") at least one month before the training date – "Research Team" to conduct baseline survey with all students on some date before the main training.
   e. Setting up a strong communication point between the "College" and the "Research Team". These individuals from the "College" will be responsible for coordinating logistics.
2. **Post-training commitments**
   a. Facilitating data collection activities:
      i. Organising follow-up surveys for training participants - on a predetermined day every 2 weeks, students to gather in the computer lab to complete follow-up surveys
   b. Ensuring that students remain responsive over the entire program period of about 2 months - which includes the baseline survey, the training session, and the post training engagement (job information and follow-up surveys).
      i. In this regard, the "College" may want to incentivise students by using levers like attendance, grace marks, refundable deposits, etcetera
3. **Allow the "Research Team" to collect data**
   a. Collect information on students' job search patterns and behavior on the job market through baseline, midline and endline surveys.



Berkeley

Reporting

The "Research Team" will communicate to ensure the steps agreed upon in this MOU will be taken in a mutually satisfactory way.

Funding

This MOU is no commitment to funds from either side. The "College" will NOT bear any monetary charges for the employability and soft skills program.

Duration

This MOU is at-will and may be modified by mutual consent of the "Research Team". This MOU shall become effective upon signature by the authorized persons and will remain in effect until modified or terminated by any one of the partners by mutual consent.

EMPLOYABILITY TRAINING PROGRAMME

OBJECTIVES:

- To provide training to students to make them employable after graduation.
- To educate new methods of searching jobs via different platforms.
- To develop Professional skills among the students.

OUTCOMES:

- Helpful for improving skills among the students to make them employable.
- Improves level of confidence and Professional skills.
- Learned various methods for searching for a job in the field of their interest.

Summary Report

Phase I - Introductory Session

Date: 16/12/19
Venue: Room no. 201
Time: 10.30 am
Total count of students: 272
Class: - Third year students
Resource Person: Mr. Yash Mehta & Team (Representatives of World Bank research project and Berkeley and Talerang Employability Training Institution)
Coordinator: - Prof. Deepika Valecha

PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

On 16th December, S.S.T. College conducted a seminar based on employability skills development. This session was specially conducted for third year students. The session was headed by Mr. Yash Mehta & his team.

Interaction with students about Employability Program

Mrs. Khushbu Purswani, Vice Principal, SST College shared the knowledge about the session and its importance to all the students in their career building. The resource person was welcomed by, Dr. J. C. Purswani, Founder & Principal, SST College by giving a Tulsi sapling.

Yash Mehta shared valuable information about this session, its importance, and how it is beneficial to all third-year students. Along with the research project, students will be getting employability training from one of the world's best training institutions, i.e., Talerag. The students were informed of the schedule of the World Bank research project and training. At the end of this session, interested students registered for World Bank training.

Students got knowledge and information about life after college and what it was going to be like. And they came to know the difference between the qualities that they possess and the qualities that the employer or job recruiter/interviewer searches for. And with full enthusiasm, many students enrolled themselves for this session.

Phase II - Aptitude Test

Date: 23/12/19
Venue: Computer Lab
Time: - 09:30 AM – 05:00 pm
No. of students enrolled for Aptitude Test: - 19

Resource Person: Mr. Yash Mehta & Team (Representatives of World Bank research project and Berkeley and Talerang Employability Training Institution)
Coordinator: - Prof. Deepika Valecha

With reference to employability training, an aptitude test was organized for students to check their ability in reasoning skills, technical skills, and aptitude skills. Students were divided into batches of 30 students; the duration of the test was 90 minutes per batch. The ability of students to solve the aptitude test increased, which built confidence among students.

Glimpses of Aptitude Test

IIT – SPOKEN TUTORIAL

Brochure

JAVA

The Spoken Tutorial Project
- Self-explanatory: uses simple language
- Audio-video: uses multisensory approach
- Small duration: has better retention
- Learner-centered: learn at your own pace
- Learning by doing: learn and practise simultaneously
- Empowerment: learn a new **FLOSS** (**F**ree/**L**ibre and **O**pen **S**ource **S**oftware)

Target Group
- Students- High School and College
- Working professional- Software users, developers and trainers
- Research scholars
- Community at large

Workshops
The Spoken Tutorial Project Team conducts workshops on Java and other FLOSS using spoken tutorials and gives certificates to those who pass an online test.
For more details, please visit
https://spoken-tutorial.org

Forum
We have developed a beginner friendly Forum to answer specific questions pertaining to any part of a particular tutorial.
For more details, please visit
https://forums.spoken-tutorial.org.

The Spoken Tutorial Project is funded by the National Mission on Education through Information and Communication Technology, Ministry of Human Resource Development, Government of India.

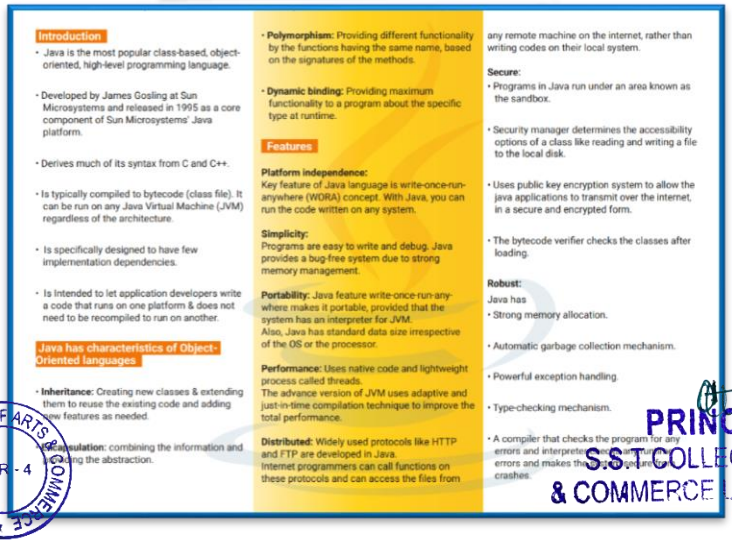
Funded by MHRD, Government of India.



Introduction
- Java is the most popular class-based, object-oriented, high-level programming language.
- Developed by James Gosling at Sun Microsystems and released in 1995 as a core component of Sun Microsystems' Java platform.
- Derives much of its syntax from C and C++.
- Is typically compiled to bytecode (class file). It can be run on any Java Virtual Machine (JVM) regardless of the architecture.
- Is specifically designed to have few implementation dependencies.
- Is intended to let application developers write a code that runs on one platform & does not need to be recompiled to run on another.

Java has characteristics of Object-Oriented languages:
- **Inheritance:** Creating new classes & extending them to reuse the existing code and adding new features as needed.
- **Encapsulation:** combining the information and hiding the abstraction.
- **Polymorphism:** Providing different functionality by the functions having the same name, based on the signatures of the methods.
- **Dynamic binding:** Providing maximum functionality to a program about the specific type at runtime.

Features

Platform independence:
Key feature of Java language is write-once-run-anywhere (WORA) concept. With Java, you can run the code written on any system.

Simplicity:
Programs are easy to write and debug. Java provides a bug-free system due to strong memory management.

Portability: Java feature write-once-run-anywhere makes it portable, provided that the system has an interpreter for JVM.
Also, Java has standard data size irrespective of the OS or the processor.

Performance: Uses native code and lightweight process called threads.
The advance version of JVM uses adaptive and just-in-time compilation technique to improve the total performance.

Distributed: Widely used protocols like HTTP and FTP are developed in Java.
Internet programmers can call functions on these protocols and can access the files from any remote machine on the internet, rather than writing codes on their local system.

Secure:
- Programs in Java run under an area known as the sandbox.
- Security manager determines the accessibility options of a class like reading and writing a file to the local disk.
- Uses public key encryption system to allow the java applications to transmit over the internet, in a secure and encrypted form.
- The bytecode verifier checks the classes after loading.

Robust:
Java has
- Strong memory allocation.
- Automatic garbage collection mechanism.
- Powerful exception handling.
- Type-checking mechanism.
- A compiler that checks the program for any errors and interpreter checks any run time errors and makes the system secure from crashes.

Syllabus

Introduction

- Java is the most popular classbased, objectoriented, highlevel programming language.
- Developed by James Gosling at Sun Microsystems and released in 1995 as a core component of Sun Microsystems' Java platform.
- Derives much of its syntax from C and C++.
- Is typically compiled to bytecode (class file). It can be run on any Java Virtual Machine (JVM) regardless of the architecture.
- Is specifically designed to have few implementation dependencies.
- Is Intended to let application developers write a code that runs on one platform & does not need to be recompiled to run on another.

Contents

1. Getting started java Installation
    - Install jdk from Synaptic Package Manager
    - Choose openjdk6jdk from the list of packages available
    - Mark it for installation
    - The installation will take a few seconds
    - Verify the installation
    - At the command prompt type java version, so the version number of the jdk will be displayed
    - Run a simple java program and see if it works
    - Type javac TestProgram.java for compiling the code and java TestProgram for executing the code
2. First Java Program
    - write simple java program
    - print “My First Java Program!” on Console
    - save the file
    - file name given to the java file
    - compile the file
    - run the file
    - correct the errors
    - naming conventions for class
    - naming conventions for method
    - naming conventions for variable
3. Installing Eclipse
    - Install Eclipse on Ubuntu on the Terminal

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- Set up the proxy on the Terminal
- Then fetch the list of all the available softwares
- Type sudo aptget update
- Then install eclipse on the Terminal
- Type sudo aptget install eclipse
- Verify if Eclipse is installed on the system
- Installing Eclipse on Debian,Kubuntu,Xubuntu
- Installing Eclipse on Redhat
- Installing Eclipse on Fedora,centos and suse linux

4. Getting started Eclipse
    - Eclipse is an Integrated Development Environment
    - It is a tool on which one can write, debug and run java programs easily
    - Open Dash Home and type Eclipse in the search box.
    - We get Workspace Launcher
    - On clicking on Workbench we get the Eclipse IDE
    - Go to File>New>Project and select Java Project
    - Create a project named EclipseDemo and create a class inside DemoClass
    - Learn about Package Explorer and Editor portlet
5. Hello World Program in Eclipse
    - Open Eclipse
    - Create a Java Project named DemoProject
    - Create a class named DemoClass
    - Class name and file name will be the same
    - Eclipse suggests various possibilities as we type a command
    - Eclipse also completes the parentheses by automatically adding the closing parentheses
    - Include the statement that we want to print
    - Eclipse also completes the quotes by adding the closing quote
    - Compile and execute the program
    - Change the code to print
6. Errors and Debugging in Eclipse
    - When writing a Java Program, here is a list of typical errors:
    - Missing semicolon(;)
    - Missing double quotes(".")
    - Mismatch of filename and classname
    - Typing the print statement n lower case
    - The line which has the error will be indicated with a red cross mark on the left margin
    - The list of errors is displayed by hovering the mouse over the cross mark
    - Create a class ErrorFree with Errors, debug the code and run it
    - Eclipse also offers intelligent fixesBasic

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

7. Programming features Eclipse
    - Auto completion
    - Sets the corresponding closing brace when we open the brace
    - Provides a dropdown list of methods when you start typing the code
    - Syntax highlighting
    - Classname is highlighted in pink colour and method in blue colour
    - Keyboard shortcuts
    - F11 to debug a program and Ctrl+H to search a specific file
    - Error highlighting
    - Cross symbol in the program denotes errors
    - Remove semicolon and error details are displayed when mouse is hovered over cross symbol
8. Numerical Datatypes
    - define datatypes and numerical datatypes
    - int
    - float
    - byte
    - short
    - long
    - double
    - range of each numerical datatypes
    - declaration and initialization of numerical datatypes
    - valid and invalid declaration
9. Arithmetic Operations
    - Define an operator
    - Define arithmetic operators
    - Addition
    - Subtraction
    - Multiplication
    - Division
    - Modulo
    - Simple program to demonstrate arithmetic operators
    - Appropriate datatypes for appropriate values
    - save,compile and run the program
10. Strings
    - char datatype
    - letter,digit,punctuation marks, tab, or space are all characters
    - Program explaining the variable and the character data
    - Introduction to strings

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- Creating string by Direct Initialization
- Creating string by using new operator
- String length()
- String concat()
- String toUpperCase()
- String toLowerCase()

11. Primitive type conversions
    - define type conversion or type casting
    - higher order integer to lower order integer Explicit type casting
    - program to show explicit type casting
    - common mistake in explicit type casting.
    - program to show common mistake in explicit type casting
    - lower order integer to higher order integer – Implicit type casting
    - program to show implicit type casting
    - char to integer
    - integer to char
    - program to show char to int type casting.
12. Relational Operations
    - boolean datatype
    - equal to
    - not equal to
    - less than
    - less than or equal to
    - greater than
    - greater than or equal to
13. Logical Operations
    - use of logical operators
    - and (&&) operator
    - example to explain and operator
    - program to demonstrate and operator
    - or (||) operator
    - example to explain or operator
    - (program to demonstrate or operator
    - not (!) operator
    - program to demonstrate not operator
    - save, compile and run the programs
14. if else
    - Conditional Statements and types of Conditional Statements
    - Use of if statement

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- Syntax for if statement
- Program using if statement
- Use of if else statement
- Syntax for if else statement
- Program using if else statement
- Use of if else if statement
- Syntax for if else if statement
- Program using if else if statement

15. Nested if
    - explain nested if
    - nested if syntax
    - program to demonstrate nested if
    - explain the control flow of the program
    - explain ternary operator
    - syntax for ternary operator
    - explain the syntax
    - program to demonstrate ternary operator
    - comparison between ternary operator and nested if
    - save, compile and run the program
16. Switch Case
    - define switch case statement
    - compare switch and nested if
    - switch case syntax
    - working of a switch case statement
    - use of keyword switch
    - valid and invalid use of keyword case
    - use of keyword default
    - use of keyword break
    - program to demonstrate switch case statement
    - save, compile and run the program to check the output
17. while loop
    - Loop control statement
    - types of loop control statements
    - Introduction to while loop
    - syntax of while loop
    - Program using while loop
    - Check the output.
    - Introduction to infinite loop
    - loop variable modification

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- Check the output
- How to terminate the infinite loop

18. For Loop
    - introduction to for loop
    - for loop syntax
    - loop vaiable
    - loop condition
    - loop variable increment or decrement
    - loop block
    - flow of loop
    - advantage of using loop
19. do while
    - define do while
    - do while syntax
    - working of do while loop
    - example of do while loop
    - explain the do while programming
    - save, compile and run the program to check the output
    - how different is it from the while loop
    - program to demonstrate the differences
20. Introduction to Array
    - about arrays.
    - declare an array
    - initialize an array
    - intialization using for loop
    - index of an array elements
    - change values of an array
    - print the value of an array
    - advantage of an array.

Certificate

Certificate for Completion of Java Training

This is to certify that **SHUBHANGI DHALE** has successfully completed **Java** test organized at **S.S.T College of Arts and Commerce** by **DEEPA AGRAWAL** with course material provided by the Spoken Tutorial Project, IIT Bombay. Passing an online exam, conducted remotely from IIT Bombay, is a pre-requisite for completing this training.

BHAVIKA MULCHANDANI from **S.S.T College of Arts and Commerce** invigilated this examination. This training is offered by the Spoken Tutorial Project, IIT Bombay.

Syllabus

1. HTML Overview
    - About HTML
    - The content available in various tutorials in this series
    - My First HTML Program
    - Elements, Tags and Attributes
    - Formatting Tags
    - Styles and CSS
    - Lists
    - Tables
    - Phrase Tags
    - Doctype and Head Section
    - Embedding Images
    - Embedding Audio and Video
    - Block Elements and Layouts
    - Forms
2. My First HTML Program:
    - Structure of an html document
    - Write a sample html program
    - html, head & body sections
    - title tag
    - H1 heading tag
    - Save the html program
    - .html and .htm file extensions
    - Run the html program
    - View in a web browser
3. Elements, Tags and Attributes in HTML:
    - Elements
    - Empty elements
    - Nested elements
    - Tags
    - Self Closing Tags
    - Attributes
    - Common Attributes
    - Single and Double Quoted Attributes

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4

S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- Break tag
- Paragraph tag
- background color attribute

4. Formatting Tags
    - Text Formatting Tags
    - -Paragraph
    - -Heading
    - -Bold
    - -Italic
    - -Small
    - -Underline
    - -Delete
    - -Insert
    - -Super Script
    - -Sub Script
    - Break Tag
    - Horizontal Ruler
    - Anchor
5. Styles and CSS
    - Inline style,
    - Style Attribute,
    - Style tag,
    - CSS,
    - Common Style Attributes:
    - - text align,
    - - font-family,
    - - font-size,
    - - colour,
    - - Background Colour
6. Lists in HTML
    - What is list?
    - Types of List:
    - - Ordered List
    - - Unordered List
    - - Description List
    - List Attributes
    - - Ordered List Types
    - - Unordered List styles
    - Nested Lists
7. Tables in HTML

S.S.T COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- Tables
- Table Elements:
- - caption
- - table row
- - table heading
- - table definition
- Table Attributes:
- - Spacing
- - Padding
- - Border
- - Width
- - Row Span
- - Column Span

8. Phrase Tags in HTML
    - Comments
    - - Single line comment
    - - Multiline comment
    - Phrase tags
    - - Strong
    - - Emphasised
    - - Marked
    - - Abbreviation
    - - Quote
    - - Cite
    - - Code
    - - Pre
    - HTML Entities
9. DOCTYPE and Head Section
    - DOCTYPE
    - Doctype Declaration
    - Head Section
        - Title tag
        - Style tag
        - Script tag
        - Meta tag
        - Link tag
        - Base tag
    - Keywords
    - CSS
    - JavaScript
10. Embedding Images in HTML

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

- How to embed an image using img tag
- Image Source attribute
- Alternative text for the image
- Downloading image from the internet
- Searching reusable image
- Creating image as a link
- Customising the width of an image
- Customising the height of an image
- Image Maps
- Link to image map

11. Embedding Audio and Video in HTML
    - Embed an audio file using audio tag
    - Embed a video file using video tag
    - HTML5 supported audio formats
    - HTML5 supported video formats
    - Provide multiple sources
    - Cross verify the source media file
    - Firefox browser and HTML5 audio video support
    - Safari browser and HTML5 audio video support
    - Player playback controls
    - Modify video player dimensions
12. Block level elements
    - Inline elements
    - div tag
    - span tag
    - HTML5 layouts
    - Header tag
    - Footer tag
    - Navigation tag
    - Article tag
    - aside tag
13. Forms in HTML
    - About Forms
    - Creating a simple form
    - Form elements
    - Input tag
    - Label tag
    - Button tag
    - Input types
    - Text type
    - Email type

S.S.T. COLLEGE OF ARTS & COMMERCE UNR - 4
PRINCIPAL
S.S.T COLLEGE OF ARTS

Learn to Design your own Solar System

Circular

Ref: SSTC / ITCSD / 20-21 **Date: 07/08/2020**

All SST College of Arts and Commerce students are invited to join the Energy Literacy Course on 'Learn to Design your own Solar System'. The course is scheduled from 13th August, 2020 to 30th August, 2020. Registration form link will be shared with you all in the email. E-Certificates will be provided on your registered email-id within 3 to 5 days. For any further queries contact Asst. prof. Deepika Valecha and Asst. prof. Krishna S.
Interested students kindly register for the competition.

C C

To, All the departmental coordinators, please circulate to all the classes and display the same on Notice Board, also ask the students to attend the program. Submit attendance of the students.

To the file

To the office for information and necessary action, to the accounts for necessary action.

Report

Objectives:

A major transformation in energy generation and consumption towards renewable energy through the involvement of public

The course was conducted between 13th August 2020 to 30th August 2020 by SST college of Arts and Commerce in association with Energy Swaraj Foundation. In this course, two links were provided to the students for watching 15 videos related to the course and to appear for the final quiz. So students watched all the 15 videos and they were given 32 questions for the final quiz. Out of which 25 questions need to be solved correctly for being eligible for E-certificate. Around ___ no students participated in the course.

The Energy Swaraj Foundation

The Energy Swaraj Foundation is a not-for-profit organization, formed to establish Energy Swaraj across the world. The motto of the ESF is "Energy by Locals for Locals". The Foundation believes that not through the governments around the world or its policies, but through the involvement of the public, a major transformation in energy generation and consumption towards renewable energy can be achieved. The Foundation in its 'public movement' mode of operations, works with the people to provide them affordable, reliable and complete energy solutions.

The Foundation collaborates with local academic institutions to establish "Energy Swaraj Ashrams" or solar incubation centers to enable and nurture local entrepreneurs. Such localized operations are key to establishing Energy Swaraj.

PRINCIPAL
S.S.T COLLEGE OF ARTS
& COMMERCE ULHASNAGAR-4

Syllabus

Step-1 : Energy and Power are two different things

Step-2 : Calculate Energy Consumption of Applianceso

Step-3: Is your home electricity bill more than it should

Step - 4 : What is a Solar System?

Step - 5 : Basics of Solar Panels Power Rating and Pricing

Step-6 : Basics of Solar Panels Efficiency and Area Requirements

Step - 7 : Basics of Batteries

Step-8 : Basics of Batteries - part 2

Step 9 - Electronic Management of Solar Systems | Part-1 : Inverter

Step 10 - Electronic Management of Solar Systems | Part-2 : DC Solar Systems

Step 11- Operating Cost of Home Appliances | Part-1 : Star Ratings

Step 12- Operating Cost of Home Appliances | Part-2 :Electronics and Motor based appliances.

Step 13- How much solar radiation in my area?

Step 14- Solar Home System Design in just 10 Mins

Step 15- What is the cost and subsidy on solar systemLink –
