PRINCIPAL'S MESSAGE

Welcome!

Your Second Home – S.S.T College

Dear Parent,

If we can identify one thing common here and elsewhere, that is “Change”. Globalization initiatives at the higher levels have compelled all of us to see things from different perspectives. The way people see at things has totally changed. Education is no exception to this. Today, more and more people are driven by management Education. It has become a sort a “MUST” for top level designations in corporates.

SST College aims at providing education that widens the spectrum of the student’s mind. The process of learning, in this centre for Excellence is unique, meaningful, fruitful and productive. The student is trained to face the challenges of modern technology and at the same time, taught to cherish our traditional values. Armed with knowledge, strengthened by the roots of culture, a SSTIAN is well equipped to face a future which is beyond the “Fourth Wave”.

While welcoming your child into our fold, I take this opportunity to congratulate you on your discerning choice of the right place that provides the right education in the right environment.

PROGRAMMES AND COURSE OUTCOME

PROGRAM OUTCOME

POs are declarations concerning the knowledge, abilities, and attributes a graduate should possess. POs deal with the general aspect of graduation for a specific programme as well as the skills and knowledge a graduate will have upon programme completion.

COURSE OUTCOME

Course Outcomes (COs) are statements of essential understanding that students should have and be able to actually exhibit at the end of a course. The course (learning) outcomes specify the skills, talents, and behaviour that students should be able to exhibit. For each course, the course coordinator prepares the course outcomes.

PROGRAM EDUCATIONAL OBJECTIVES

The career and professional accomplishments that the programme is preparing its graduates to achieve are outlined in the programme educational objectives (PEOs). Four to five years after graduating, PEOs are evaluated.

A successful outcome-based curriculum must integrate each course's outcome with the desired programme outcomes (POs) and program-specific outcomes (PSOs). Looking at how thoroughly the outcomes are covered and assessed in the curriculum is made possible by the CO-PO mapping. The department has established its own PSOs of each course in accordance with the programme outcomes specified by the university curriculum and advice from industry experts using Bloom's Taxonomy – recommended action verbs for different learning levels. In order to deliver education adopting a student-centric approach and a teaching and learning process that is outcome-focused, the Institute has introduced outcome-based education (OBE).

Program Outcomes (POs), Program Specific Outcomes (PSOs) of all the UG and PG Programmes have been disseminated to the stake holders via college website (www.sstcollege.edu.in) & College Notice Boards.

The Board of Studies (BOS) for each programme deliberates and approves these COs. The College Website and the College Notice Board both display the COs for each course (www.sstcollege.edu.in). A correlation is established between COs and POs, PSOs on the scale of 1 to 3.

Scale	Indication
1	Low Correlation
2	Medium Correlation
3	High Correlation

AVERAGE CO – PO MAPPING

The average mapping of Program outcomes for the given program is obtained by averaging the levels of mapping for each of the courses. Similarly the averaging is done for Program specific outcomes as well.
