## PROGRAMMES AND COURSE OUTCOME

### PROGRAM OUTCOME

POs are declarations concerning the knowledge, abilities, and attributes a graduate should possess. POs deal with the general aspect of graduation for a specific programme as well as the skills and knowledge a graduate will have upon programme completion.

### COURSE OUTCOME

Course Outcomes (COs) are statements of essential understanding that students should have and be able to actually exhibit at the end of a course. The course (learning) outcomes specify the skills, talents, and behaviour that students should be able to exhibit. For each course, the course coordinator prepares the course outcomes.

### PROGRAM EDUCATIONAL OBJECTIVES

The career and professional accomplishments that the programme is preparing its graduates to achieve are outlined in the programme educational objectives (PEOs). Four to five years after graduating, PEOs are evaluated.

A successful outcome-based curriculum must integrate each course's outcome with the desired programme outcomes (POs) and program-specific outcomes (PSOs). Looking at how thoroughly the outcomes are covered and assessed in the curriculum is made possible by the CO-PO mapping. The department has established its own PSOs of each course in accordance with the programme outcomes specified by the university curriculum and advice from industry experts using Bloom's Taxonomy – recommended action verbs for different learning levels. In order to deliver education adopting a student-centric approach and a teaching and learning process that is outcome-focused, the Institute has introduced outcome-based education (OBE).

Program Outcomes (POs), Program Specific Outcomes (PSOs) of all the UG and PG Programmes have been disseminated to the stake holders via college website ([www.sstcollege.edu.in](http://www.sstcollege.edu.in)) & College Notice Boards.

The Board of Studies (BOS) for each programme deliberates and approves these COs. The College Website and the College Notice Board both display the COs for each course ([www.sstcollege.edu.in](http://www.sstcollege.edu.in)). A correlation is established between COs and POs, PSOs on the scale of 1 to 3.

Scale	Indication
1	Low Correlation
2	Medium Correlation
3	High Correlation

### AVERAGE CO – PO MAPPING

The average mapping of Program outcomes for the given program is obtained by averaging the levels of mapping for each of the courses. Similarly the averaging is done for Program specific outcomes as well.
