Aakash-Kandil Making Event

Report

Event Coordinator: Ms.Deepa Agrawal

Event In-charge: Asst. Prof. Neha Sing

Glimpses

"DIWALI"- the festival of lights and happiness. This festival is celebrated everywhere in our country. So this time, the participants of NATURE CLUB took an initiative to light the lamps in the life of everyone and tried to show their creativity by making the Aakash Kandil. Kandil can be seen in each and every house but the difference of this Aakash Kandil is that the students made these Kandils on their own and it is made with leftover paper cups which can be used afterwards for another reason. Students were also happy to be the part and parcel of this event and they were happy to be part of this committee because it helps them to make something innovative and to do something for our mother earth. With these small events, we can march toward progress.

Poster-making Competition

Report

Event Coordinators:-

1. Asst. Prof. Neha Singh
2. Asst. Prof. Priya Kanjan
3. Asst. Prof. Priyanka Kalikate
4. Asst. Prof. Poonam Bagul

Poster and slogan competition was organised by "Nature Club" of SST College of Arts and Commerce on 12th February August, 2020. The main aim for conducting this activity was to enhance the creativity and artistic skills of the students as well as to make them aware about our environment. It is necessary to make them aware about the situation of nature and means for conservation.

The suggested theme for poster-making as well as slogan-writing competition was **"Eco friendly Ganpati"**. The Activity started at 11.30 a.m. and the students were enthusiastic to do their best. The total time allotted for activity was 2 hours. The judges of the competition were:-

1. Asst.Prof.Nilesh Manore
2. Asst.Prof.Sambhaji Khandekar

The decision to select the winners was tough but it was done based on following criteria: -

1. Relevance to the theme
2. Accuracy and clarity of the message
3. Neatness
4. Over all presentation

The winners were awarded with the certificates. Total 50 students participated. It was an interesting activity for students as they participated in the competition with great zeal and enthusiasm. The students showed their abilities through their art where they expressed their feelings in the form of attractive quotes, paintings, sketches, etc.

Seminar on Eco-friendly Ganpati and Plastic Ban

Report

Ganpati festival is one of the most prominent festival in India. All Indians are vigorously waiting for this festival. We make Ganpati festival in traditional way but this year we made Ganpati festival traditionally along with care of environment means Eco friendly. Our college organized seminar on "Ecofriendly Ganpati and plastic ban" on 28 August 2019. MR. Marshal Nadal (President of youth and welfare federation Ambernath) has taken seminar for all faculty students. Total 105 students were participated in seminar. The seminar was conducted for students to aware about Eco friendly Ganpati & benefit for environment. How to celebrate festivals without harming to environment. In this seminar they also learnt how to use other material rather than plastics. Say no to Plastic.

Visit to Eco-sensitive zone - "Matheran"

Report

Teacher In charge: Asst. prof. Priyanka kalikate
Asst. Prof. Ravindra Phadake
Student Incharge: Miss Samidha Shinde

Total number of Students:38

Nature Club had organised a visit to the Eco-sensitive zone "Matheran" on 20 December 2019. Matheran is a hill station and eco-sensitive zone in Raigad district near Karjat.

The objectives of the visit were:

1. To interact with nature scenery.
2. To understand the Eco-sensitive zone.
3. To give trekking experience to students, and
4. To promote ecotourism.

The nature journey starts from Ulhasnagar in the early morning by train. We reached Neral station and then moved towards Matheran by taxi. Finally we reached our destination. The troop then started walking from Dasturi Point and reached Aman Lodge near the railway station in 7 to 8 minutes. The rail track route is slightly shorter. All walking tourists prefer the rail track route. Along the rail line, villagers put snacks, cold drinks and tea stalls for tourists. We reached Matheran railway station in the next 30 to 40 minutes. We experienced nature's beauty. We visited the following points of tourism:

1. Monkey point
2. Artist point
3. Charlotte lake
4. Pisarnath Temple
5. Loise point
6. Eco point
7. Lord point

The journey was full of enjoyment with fresh air, greenery, and a pleasant environment. Visiting such beautiful points, we reached the Matheran market. In the market, there was a small garden where we spent some time. Again, we walked back home. Some students also

Experienced Horse riding. Total 57 Students experienced about a total of 12 kms of nature trail and interacted with nature.
